17:00 Guided tour / Melk Abbey

Empowerment, Recovery and Professional Growth in Work-Based-Learning – Results and Lookout

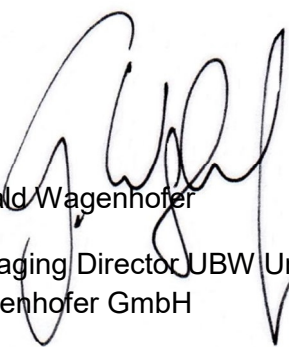

To close our EU project "PROFINWBL - Professionalism in Work-Based Learning", which is funded by the EU programme Erasmus+, we are organising the European Conference "Empowerment, Recovery and Professional Growth in Work-Based-Learning ". This conference also serves as the Austrian Multiplier Event for the dissemination and communication of our results, combined with an outlook on the potential benefits of the results for the main target group – the "health and social sector" – but also beyond.

The objectives of this conference are:

- Presentation, dissemination and communication of the project results of our EU project "PROFINWBL"
- Pointing to relevant developments in other economic sectors
- Extension of the discussion by also looking beyond the main target group – "health and social services"

By this European conference, we will offer an opportunity to discuss our project results and exchange ideas with representatives of our main target group. At the same time, we want to take account of developments and activities in other sectors and other perspectives in order to ensure mutual learning and knowledge-sharing.

Attend the conference on 11 May 2017 in Melk and let us talk about the various chances of work-based learning for empowerment, recovery and professional growth!

Gerald Wagenhofer
Managing Director UBW Unternehmensberatung
Wagenhofer GmbH

Participation & Registration

Participation is free of charge, as the conference is funded by the Erasmus+ programme.

This project has been funded with support from the European Commission.
